STORING 95 LB OF ICE

Requierments

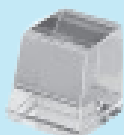

- **POWER:** 115V (7.2 AMP)
- **WATER:** 3/8" SUPPLY LINE
(MINIMUM)
- **Drain:** Gravity drain to floor sink
or sump may be required

Cube Shape

Half Cube

$\frac{3}{8}$ " x $\frac{1}{8}$ " x 7"

Cube

$\frac{7}{8}$ " x $\frac{7}{8}$ " x $\frac{7}{8}$ "

Notes / Needs:

This unit is the same size as the existing unit and I think it is to small to keep up with business needs. Back room is exceptionally warm, unit will produce ice slower when ambient temp is above 70 degrees.
